

**RESPONSES AND CLARIFICATIONS TO**  
**RFP NO. 174 FOR FULL SERVICE MECHANICAL, ELECTRICAL AND**  
**PLUMBING SERVICES FOR TRACK IMPROVEMENTS**  
September 11, 2015

**Questions and clarifications:**

1. Questions concerning Attachment 2 – Respondent Questionnaire.
  - A. Our firm has been providing mechanical, electrical, and plumbing engineering services since 1997. While our firm does work in the private sector market, the majority of our work is performed for public agencies – federal, state, municipal, educational, etc. As a result, a list of school districts we provided services for is rather extensive. Is it acceptable to present a representative list rather than a complete list?
  - B. Yes, it is acceptable to do that. Please concentrate on related experience within Inland Empire.
  - C. I understand that the questions on the questionnaire may be answered in other parts of the written proposal as long as it is clearly identified on the questionnaire. We can see several areas where this may be necessary. As long as we clearly identify where to locate the answers in our proposal response, if this acceptable?
    - A. Yes, it is acceptable. Please be sure to include a reference.
2. Please confirm the Page limit for the RFQ submittal.
  - A. There is no page limit.
