Responses and Clarifications to
RFP No. 206 Facility Management System Software
February 22, 2018

1. Does the district have a desired/ targeted "go-live" date?

   A1. We would like the initial launch to correspond within a month of the start of the new school year on August 6, 2018.

2. Does the District require a narrative response or confirmation of capability for every single line item requirement included in Exhibit A – Scope of Services / Statement of Work?

   A2. Confirmation can be brief, simple yes or no or – (example): "System can perform all of 6.0 (Work Order Module) requirements except 6.50.1 thru 6.50.4" (list exceptions if any).
