

RESPONSES AND CLARIFICATIONS TO  
RFQ NO. 128 FOR REAL PROPERTY SURVEY SERVICES  
October 31, 2012

---

Q1. We are interested in submitting our qualifications to provide land surveying services for your consideration per the notification noted below. As our office is located in Oceanside, San Diego County, would we be precluded from serious consideration because we do not have an office in San Bernardino?

A1. Firms are invited to submit proposals regardless of which city their businesses are located in. The District only advocates that if a firm is selected as one of the successful consulting firms they engage local businesses within the City of San Bernardino. At least 10% of the dollar amount for services provided by the selected firms should go to the local businesses in the City of San Bernardino.
